FESA BIATHLON ALPENCUP  
**POKLJUKA**  
20 - 22 DEC 2024

## COMMON WAXING PROTOCOL POKLJUKA, 20.-22. 12. 2024

### A. Protocol

1. *Ski collection: 6 persons*

Skis must be marked with a sticker indicating the athlete's start number. Stickers will be provided in common waxing station (at garage) at ski delivery. Placement of sticker is behind the ski binding.

2. *Ski cleaning: 2-4 Technicians, depending on the number of competitors*

Process of skis cleaning: skis will be brushed with a soft steel brush and then cleaned using wax remover applied with soaked paper. Cleaned skis will be left to dry.

3. *Wax application: 2 Technicians*

Wax will be applied using the roto Masterwax system.

We kindly ask each of the nations to provide one wax table.

4. *Skis pick up: 2 persons*

Athletes will pick up their skis on competition day at the start area just before their start time.

### B. Personnel Requirement:

To execute the above tasks, approximately 10–14 persons are required, depending on the number of registered competitors. Each nation must provide one technician per 25–30 athletes.

**Sign-In Requirement:** All assistants and technicians must register on the list and schedule available at the Competition Office.

### C. Location

The common waxing station will be located in Garage Nr. 2 at Hotel Center, SC Triglav Pokljuka.

### D. Ski Delivery:

- For Saturday's competition, skis must be delivered to the common waxing station on **Friday, between 15:00 and 16:00 latest.**
- For Sunday's competition, skis must be delivered to the common waxing station **on Saturday between 15:00 and 16:00 latest.**

### Ski Preparation and Distribution:

- Skis will be prepared during the evening.
- On the competition day, skis will be delivered to the start area where athletes will pick them up just before their start time.
